

## Welcome Ms. Sharr

*Evan Archibeque*

You've probably seen the new principal, Ms. Sharr...unless you're not at our school. In that case, you should probably stop reading this. Ok, down to business...

There is an amazing new principal here at Newman! She's going to raise the roof on this school. She's very excited to be at Newman. Her favorite subjects at school were business and education. She has been in education for 18 years.

She wants to help the school become safer and more fun. So go say hi when you see her around! We want to welcome her to our school as best as we can.

## Community Breakfast

*Ember Osness*

Hello, Newman families! Well, we have a treat for you! On every third Wednesday of every month, we have a community breakfast for the Newman parents in the gym with Ms. Sharr. This is a time for families to socialize with each other and talk about what's popping at Newman. It happens at 8:15-9:15am. Drop off your student and stick around for a bite! A big shout out to Ms. Sharr, Mr. Finch, and Ms. Pam for organizing this! We look forward to seeing you there!

## Art Every Week

*Kaylee Graciano*

Some grades have a new schedule for art! 2nd, 4th, and 6th grades will get art every week. This is amazing because we love art and learning from Mr. Paul! These grades will get to do double the art this year.

We get to make many different projects. A project that I have liked was working with clay to make cuneiform. Evan Archibeque enjoyed creating 3D spirals, Ember Osness loved falling for foreshortening, and Mia Parke had fun making ballerinas of tin foil.

If you are wondering what projects your grade is going to be doing, you can go to [www.newmanartroom.weebly.com](http://www.newmanartroom.weebly.com). I hope all of you have a great time with Mr. Paul in art!

## Germs are Everywhere

*Ember Osness*

Do you like being messy or sick? Well, I don't! Germs are found on your hands, under your fingernails, on your desks, and many other surfaces. Germs can make you sick!

There is one teacher at Newman who especially hates germs. That teacher is Ms. Richards. The reason why she hates them is because when she first became a teacher, she got really sick from her 1st grade students. She really cares about keeping her students clean and healthy. When her students are clean, it makes them feel better.

To kill germs, people need to wipe their workspaces, shower often, and wash their hands frequently. When we all do this, we feel clean, organized, and fresh.

## Coming Events:

### October

- 10/2 Soccer game @ Escalante @ 4:30pm**
- 10/3 PTA Meeting @ 5-6pm**
- 10/8 Picture Day**
- Utah Food Bank 2:20-3:20pm**
- 10/16 Soccer game @ Escalante @ 3:30pm**
- 10/17-10/21 Fall Break**
- 10/23 Soccer game @ Escalante @ 3:30pm**
- 10/24 Family Night @ 6:30pm**
- 10/30 Soccer game @ Escalante @ 3:30pm**
- 10/31 Halloween Parade @ 8:20-9:00am**

## Dyad Reading & Literacy

Families, want to learn how to help your student grow 2 or more grade levels in reading? Attend our parent Dyad Reading training session during the Literacy Family Fun Night on October 24th starting at 6:30pm here at Newman Elementary.

## Newman Soccer

*Mia Parke*

Goal! Newman soccer team is back! I interviewed four Newman students to find out what they think about soccer. Lola, a 6th grader, said she wanted to do a sport and soccer was perfect. Jael and Jitmar, both 6th graders, play for fun. Addie, a 5th grader, said it has made her faster at running. Cheer on our Newman Tigers each week!

## Bullying

*Evan Archibeque*

Today will be very serious because I'm talking about bullying. You may think bullying is one-sided, but there is a lot to it. People need to get that they don't know what's going on in other's lives when they're not at school. And sadly, treating others badly is what brings some people joy.

If you have been bullied or want to help someone who has been bullied, there are a few different people you can talk to. First, you should tell the bully to please stop. They may not mean to be mistreating you. It's important to stand up for yourself respectfully. If they don't listen, a second option is you can tell a nearby, trusted adult, like a teacher. Another good person to talk to is Ms. V. She's super helpful and will not make it awkward. Talking to people is always the best way to get stuff off your back.

If you're being bullied on social media or online, you can tell your parents and/or block whoever it is. Just because you're behind a screen, doesn't mean you can be mean! For anyone who is bullying, please stop! Bullying can ruin people's lives. So peace out, my dudes! Be kind!

## Boy Scout Troop

*Brylee Maddox*

Have you ever heard of Boy Scouts of America? If not, it's a program that helps you develop character. You can earn merit badges for completing tasks with the group. Best of all, there are girls allowed in a lot of troops, including my troop, Troop 28.

Some of the awesome activities we do at Scouts are going to camps, hanging with friends, and hiking. We also sell popcorn to fundraise.

We meet Thursday nights at 7:00pm at Newman in the front. Our troop is from the ages of 11-18. So if you are that age and are interested, email [scoutsofrosepark@gmail.com](mailto:scoutsofrosepark@gmail.com). You can also check out our Facebook page, "Scouts of Rose Park" or our YouTube channel "Skills of a Scout". We hope to see you there!

## Jack-o'-Lanterns

*Soren Wangsgard*

Do you like oranges? Well, this is about pumpkins! The tradition of carving pumpkins started because the Celtic people wanted their homes to be lit up with lanterns. They carved many different vegetables, not just pumpkins. Later, the name "jack-o'-lantern" started when an Irish farmer named Jack supposedly made a deal with the devil. Today, we still use the term and enjoy carving pumpkins.

For my jack-o'-lantern, I'm carving a throwing up face. I'll use the pulp from the inside for the throw up. You could do the classic "triangle" eyes and nose or be inspired by a character you like. But remember, be careful using knives to carve. Be creative and have fun with it! Happy Halloween!

## Mia's OG Apple Recipe

*Mia Parke*

### Ingredients

6 Granny Smith apples

Two packages of Werther's Original soft caramels

**Step 1.** Cut an apple in half (don't cut yourself!). If you can't use a knife, have an adult help you!

**Step 2.** Hollow out the apple halves. Use a spoon, ice cream scooper, or a knife to hollow out most of the apple flesh. You can eat the scooped out part, throw it away, or feed it to your dog!

**Step 3.** Grab a pot and melt your caramels to a melted, yummy goo at medium heat. Make sure to watch your caramel so it doesn't burn. Be safe, kids (and parents)!

**Step 3.** Use a cupcake pan. Put your cut apples in each individual cupcake shape.

**Step 4.** Pour your melted caramel carefully into the hollow halves of the apples.

**Step 5.** Put your pan in the fridge. Wait until the caramel is cool before eating.

*Bon Appetit!*
